Description:

Born in 1991, Caroline Reveillaud graduated from Beaux-Arts School of Paris. Edition, sculpture, image. These are the primordial elements of Caroline Reveillaud. This work unfolds a flag drifting accross the sea. Enlarged and reproduced, the picture is reappearing both as repetition in a book, and also through a stack of images transforming into sculpture. As the beholder gets closer to the realm of the picture, the pixels start to reveal the depth of the image.
